

Air1 serves me and my community with good quality music that my family & I can enjoy together vs. the other station that put out influential music & talk that is always about sex, & immoral behavior.

The effect would be terrible for the local community as well as my family who listen to Air1, if it were to be displaced by an LPFM broadcaster providing other programming.

I believe that the service provided by Air1 is in the public interest, because it puts out good clean quality music & talk with out having to censor any information.

Not to mention that AIR-1 is only funded, & supported by all of it's listeners & that's why it is still on the air as of this day.

If you were to have all of those other radio station only funded by the listeners, & not by the corporations, that have to constantly censor the music they themselves put out, as well as the talk show they air, they would not last because, the listeners would just look for another station, or better yet they would just let it fade out because they just don't care about those stations. Those are the radio stations you should be targeting, not station like "MY RADIO STATION AIR-1"
